

NO FUSS, STYLISH AND DURABLE WINDOW

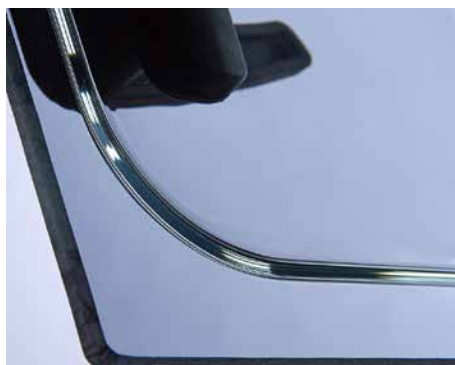

The Dometic Dlux Window is a top-hung hinged window that boasts a built-in aluminium-coated darkening blind and a fly screen. Thanks to the safety interlock system, they cannot be opened from the outside. The fly screen and darkening blind can be clipped together allowing them to be conveniently adjusted with one hand. The double acrylic glazing of the windowpane and a robust polyurethane frame ensure excellent insulation. On top of that, the modern flat exterior is aesthetically pleasing for your RV.

- Double acrylic glazing and polyurethane frame for excellent insulation and noise reduction
- Built-in aluminium-coated darkening blind and fly screen adjustable
- Quick and easy installation
- Friction hinges allow opening to any position
- Can conveniently be clipped together for simultaneous adjustment with one hand
- Design to be installed in 34 mm walls
